- High quality !
- LGA115x !
- Copper !
- 1U !

This 1U compatible Low-Profile fan/heatsink for Intel Socket 1150/1151/1155/1156 (Core i3/i5/i7, eg. Ivy/Sandy Bridge, Haswell, Skylake) enables you to run high performance systems with smallest footprint. The fan was tested especially with the mainboards Intel DH67CF but also will work with other systems.

Among others, these enclosures can be used together with the fan/heatsink :

- M350
- Morex 3677
- Morex 3688
- Mhero-S-Series

For Intel LGA1150/1151/1155/1156 [LGA115x] (Core i3/i5/i7)

Dimensions : 84 x 84 x 23mm (1U compatible)

Copper heatsink

High quality fan (70x70x10mm) with Two Ball Bearing and PWR-control (1200-5500 RPM), 19-45dba, 6.96-32.93CFM
Max. CPU TDP approx. 60W

Scope of supply :

- Heatsink/fan
- Mainboard rear plate for fixation
