- USB-A OTG connection
- Up to 2 CAN Bus channels
- Vehicle network access
- Field-installable retrofit

The EXT-USB-CAN-01 is a field-installable USB-to-CAN Bus adapter for rugged tablets and vehicle docks with a USB-A OTG port. One adapter supports up to two CAN Bus channels.

It adds hardware-level vehicle network access without changing the existing dock or tablet hardware, making it a practical retrofit solution.

Compatible with: Topicon MDT880, Topicon MDT865, Topicon MDT1065
